Open Greek & Latin •
Produces big, open data to facilitate historical language learning and advance scholarship in the field of Classics.
https://github.com/OpenGreekAndLatin

eLearning •
Teaches ancient languages through an interactive web application, Ancient Geek, providing localised support for reading primary source texts.
https://github.com/OpenPhilology/phaidra

Business •
Produces broad market research and analyses the State of the Art using open access eLearning and micropublishing technologies.
